Group Art Unit: 1652
Attorney Docket: 30570

SUPPLEMENTAL AMENDMENT

Sir:

This Supplemental Amendment is being made voluntarily, and relates to the communication of December 22, 2008, which was made in response to the United States Patent and Trademark Office Action mailed July 21, 2008.

REMARKS

In the communication of December 22, 2208, Applicants have requested correction of SEQ ID NO: 8, providing a detailed account of the trivial and unintentional nature of the mistaken SEQ ID NO: 8 (*See Response to Office Action, December 22, 2008, pages 12-14*).

Enclosed herein please find a corrected SEQUENCE listing, which differs from the SEQUENCE listing currently on file solely in the composition of amino acid sequence of SEQ ID NO: 8, which has now been corrected to include the entire amino acid sequence of human glucocerebrosidase, as encoded by the nucleotide sequence of SEQ ID NO: 7.
